

STRong Heart

Strengthening Trials and Research
for Rheumatic Heart Disease

Ms Siaa Girotra

The George Institute for Global Health, India
Research Officer

Qualifications: BSc (Microbiology), MSc (Clinical Research)

About

Siaa is a Research Officer at The George Institute for Global Health, India. She is an early career researcher with a background in Microbiology and formal training in clinical research methods from the Public Health Foundation of India.

She is the Project Manager for a multisite clinical trial (TeleREhabilitation after knee Arthroplasty trial), which evaluates the effectiveness of an mHealth intervention to facilitate home-based rehabilitation following knee arthroplasty. She is leading the process evaluation of this intervention.

Her interests include the sustainable conduct of clinical trials. She has spearheaded efforts to measure carbon emissions across various trials and is actively working to generate awareness and is keen on developing adaptable strategies to reduce carbon footprint of clinical trials in a low- and middle-income country context.
